I'm a designer, developer, project manager, and user experience expert who strives for greatness!

**BACHELOR OF FINE ARTS  
WEB DESIGN + NEW MEDIA**  
Academy of Art University  
San Francisco, CA  
**Graduated 2015**

My B.F.A. focused on web design, user experience, information architecture, usability testing, general design thinking and HTML/CSS/PHP. Additionally, it included graphic design, font design, motion graphics, digital imaging, photography, screen printing and art history.

**TECHNOLOGY LEADERSHIP**  
Certificate  
eCornell University

This certificate is helping me improve my leadership techniques, communication and time management skills, and providing new ideas for delivering projects and delegating tasks.

**WEB DESIGNER**  
Project Management  
& User Experience  
**2015-Present**  
California State Polytechnic  
University, Humboldt

Since 2015, I have been a key member of the Marketing & Communications web team. I co-administer our Drupal 7 codebase (upstream) which includes a portfolio of 200+ websites. Currently, I am project managing our transition from Drupal 7 to Drupal 10. Before taking on this role, I planned, designed and launched many high traffic campus websites and have built roughly 1/3 of the current 215+ site Drupal 7 portfolio.

My other responsibilities include conceptualizing marketing emails, building emails in MJML, offering ongoing technical maintenance and support to our clients, completing complex site redesigns, and organizing in person (or zoom) training sessions. I also regularly collaborate with our editorial team, campus photographer, and faculty & staff to build the best user experiences possible.

Working here has given me a love for higher education and a greater respect for the creative process.

**WEB & GRAPHIC DESIGN**  
Freelance Professional  
**2008-Present**  
Humboldt County

I run a small web & graphic design business that works primarily with non-profits and small businesses. My work here has given me a better understanding of client management, project management, finances, branding, print marketing and non-profit business structure.
